Training on Advanced Power BI Dashboards Masterclass

The UAE Branch Council of ICMA Pakistan in collaboration with National CPD Committee is organizing Training on "Advanced Power BI Dashboards Masterclass" via Zoom. Details are as follows:

Mastering Data Analytics and Visualization with Power BI. Advanced Microsoft Power Query, Data Modelling, DAX, and Dashboard Reports.

Any prerequisites/requirements

- Familiarity with Excel Tables and Pivot Table is added advantage
- Understanding of Excel Charts

Course Description

We are surrounded by messy & huge data, and data is everywhere, but problem is to handle chaotic data to turn into the reports to take business decisions.

What is Power BI

Power BI is a collection of software services that work together to turn your unrelated sources of data into interactive insights.

Power BI lets you easily connect to your data sources, visualize (or discover) what is important, and share that with anyone or everyone you want.

Big Data is Everywhere

The term "big data" has been around since the 1990s, yet the explosion of data in the past few years has driven home its relevance and importance. The world is already generating an estimated 2.5 exabytes of data every day. That is expected to rise to 463 exabytes daily by 2025.

What you will learn

- Create powerful, interactive, and dynamic reports
- Learn awesome Power Query modules
- Learn Data Connectivity, update data source and Reports instantly
- Learn to advanced DAX calculations and Data Optimization
- Designing interactive Power BI Reports with multiple options
- Produce cherished Insights for clients and/or your Company
