

Joint webinar by ACCA and ICMA Pakistan: Reinventing internal controls in the digital age - register now!

ICMA Pakistan and ACCA are committed to provide continuous professional development opportunities to our members.

One of the aims of the Strategic Partnership Agreement, signed between both PAOs on 10th March 2020, is to share knowledge and insights on matters that strike at the heart of our profession and their impact on the profession and economic growth.

Together we will be hosting various sessions on important topics on pressing trends and issues and inviting speakers from local and international markets to share insights from different research reports and their experience and exposure.

To kickstart this practice, we are pleased to share that both PAOs will jointly be hosting the first session on the important theme of 'Re-inventing internal controls in the digital age'. This session will broaden your understanding of how contemporary technologies are allowing improvements to business processes and control environments to take effect.

Speaker Profiles

Antonis Diolas

Antonis is currently Head of Audit and Assurance at ACCA's Professional Insights team based in London. He leads ACCA's policy on audit and assurance matters, contributing to Professional Insights publications and responses to consultations. Antonis engages at local and international level with key organisations – including the UK's Financial Reporting Council (FRC), BEIS, IAASB and Accountancy Europe. He is a technical adviser on both the IAASB and IFAC SMP Advisory Group and a member of the Audit and Assurance Policy Group at Accountancy Europe.

Shahzad Ahmad Awan, FCMA

Shahzad is currently the Chief Audit Officer at SNGPL, and is also a Member of the Internal Audit Policy Board at the Ministry of Finance, the Government of Pakistan. He is also a Member of the Accounting Standards Board of CA Pakistan.

In past, he has also served as President of Pakistan Institute of Public Finance Accountants for the term 2013-2014 and been a Technical Advisor to the SAFA Board (2012-2014).
