Dear Members,

I feel much pleasure in presenting the February 2018 issue of ICMA Pakistan's e-Newsletter which provides updates on Institute's activities during the month. In fact, as you well know, the new Council has just taken charge on 3rd February 2018 and it is presently in process of addressing priority matters, including finalization of composition of different Standing and Non-Standing Committees. As soon as the Committees are finalized, the pace of Institute activities would definitely pick up.

The February 2018 issue contains information about regular activities of Campuses like career counseling seminars, workshops, training programs etc. as well as the activities of different Directorates. Despite limited activities, we thought it prudent to bring out this issue so that our members must be kept abreast of developments in the Institute.

I would like to invite our members to share with us some ideas as well as topics on which the new Council should consider arranging seminars, workshops and training programs so that the members at large are benefitted in terms of their capacity building and value addition. Please do share your comments on rp@icmap.com.pk
